Cottingham & Butler has partnered with Select International in order to make RoadWorthy™ Assessment available to our customers. Select International's extensive research in the area of driver safety and performance enabled them to develop an assessment that evaluates the driver's history and experience, personality characteristics, and motivational fit for the position. RoadWorthy™ Assessment is extremely effective at identifying driver applicants with undesirable work habits.

The assessment process takes less than 15 minutes and is available via our website. Due to Cottingham & Butler's volume commitment, your cost is \$25 per applicant.

RoadWorthy Measures:

- Accident & Violation Risk
- Road Rage & Aggression Risk
- Volatility & Impulsivity Risk
- Attitude & Abrasiveness Risk
- Unreliability Risk
- Absenteeism & Tardiness Risk
- Turnover Risk

All of these aspects of the assessment will help you avoid costly hiring mistakes and identify any unfavorable traits of drivers that are hired.

Utilizing the RoadWorthy™ Assessment will lead to dramatic improvements in your company's productivity and loss prevention results.
